

Pradeep Singh - AIR 1

Pradeep Singh, AIR 1, UPSC Exam Strategy and Journey!

Pradeep Singh is the topper of the UPSC Exam 2019. Check out his IAS Toppers Success Formula and Preparation Strategy.

For decades, becoming an IAS officer has been a dream and an ambition for many aspirants. The UPSC's reputation is what motivates the students. The post of IAS officer is characterised by incredible success tales. Every year, tens of thousands of UPSC aspirants are motivated to attempt the exam. The trip is what counts since it is the journey that has shaped them into the people they are today.

We'll talk about Pradeep Singh IAS and his path to the top of the UPSC Civil Services examination in 2019. Pradeep Singh aspired to be an IAS officer since he was a child. He took the UPSC Civil Services exam four times before passing the fourth time.

He not only cleared the exam this time, but he also placed first in the UPSC Civil Services exam 2019. Pradeep Singh, 29, comes from the Haryana district of Sonipat. He had the necessary qualifications to work for the Indian Revenue Service (customs and central excise).

Pradeep Singh Topper 2019's Father and Family Background

Pradeep's father works as a farmer, while his mother stays at home. Pradeep Singh attended a

government school in his hometown of Tewari village until the seventh grade. His family afterwards relocated to Sonapat. Pradeep Singh is the father of a five-person family. Pradeep Malik is the younger brother of Ajeet Malik, and he has a younger sister.

He earned his bachelor's degree in engineering from Sonipat's Deenbandhu Chhotu Ram University of Science and Technology (DCRUST). Pradeep's father owns eight acres of property, which is his family's principal source of revenue.

For many aspirants, becoming an IAS officer is a dream, and students from all across India desire to be one after hearing about the success stories. Every IAS officer who is elected has a motivational tale to tell about how they got to where they are now.

Pradeep Singh's IAS Career Path

Parents are the ones who provide us with everything we have today. They shape their children like clay, shaping them into the person they want them to be. Parents instil in their children the values and motivation that will help them become better people.

Sukhbir Singh, Pradeep Singh's father, is a former Sarpanch of Tewari village in Sonapat, Ganaur. His father served as the Sarpanch of the hamlet twice. His grandfather was also a Sarpanch at one point.

All of us turn to our parents to lead us in the correct direction. Pradeep's father was his greatest source of inspiration. Pradeep's father encouraged him to pursue a career as an IAS officer. He desired to contribute to the farming community's well-being.

In 2008, Pradeep graduated from Sonapat's Shambhu Dayal contemporary school with a class 12 diploma. Pradeep took coaching for the Staff Selection Commission after completing his graduation (SSC). In 2014, he got his first job as an Income Tax Officer in Delhi.

Pradeep was ranked 260th in the UPSC Civil Services exam in 2018. Pradeep found it quite tough to study and work at the same time. He considered abandoning his IAS preparation at one point. His father was there for him the entire time, encouraging him and reminding him not to lose hope.

Pradeep's father instilled in him the virtues of patience and hard work. Pradeep also mentioned that his friends assisted him in passing the exam. Through self-study and hard effort, he was able to attain his objective of becoming an IAS official.

His plan was not to pass the exam, but to live up to his potential and achieve his dream of working for the underprivileged. His main goal has been to develop Haryana's education and agricultural industries.

Pradeep Singh- UPSC Exam 2019 IAS Preparation Strategy

Toppers' preparation strategies are looked to by IAS hopefuls as a reference for their own journey to becoming an IAS officer. IAS aspirants are still perplexed by the question.

What did Pradeep Singh do to get to the top of the UPSC exam? What was his exam motto for success?

Pradeep knew that in order to make a difference, he needed to be in a higher position after five years as an Income Tax Officer. He began studying for the UPSC Civil Services Exam shortly after that.

At the start of his UPSC preparation, Pradeep sought aid from a few IAS coaching institutes. In his first three attempts, he was unable to pass the UPSC Civil Services Exam.

Pradeep decided to study for the exam while working. He studied for the exam in the hours before and after his job shifts. He would study and prepare for the exam over the weekends.

Pradeep finally got into UPSC after four years of preparation and hard work. Every failed attempt taught him what he had done wrong, and he used what he had learned to better prepare for his fourth attempt. With each failed attempt, he highlighted the importance of self-study even more.

The most crucial piece of advice Pradeep gave for passing the mains exam was to concentrate on writing skills. He also mentioned that interpersonal skills are necessary for getting through the interview stage. Pradeep concentrated on self-study and did not deviate from his daily goals in order to ensure that the syllabus was thoroughly covered.

We hope that these success stories will inspire you to believe that nothing is impossible if you set your mind to it. With hard work, commitment, and a laser-like focus on your goals, you can overcome any obstacle.

Here are a few additional pointers for UPSC hopefuls:

Keep up with what's going on in the world.

Pradeep chose Public Administration as an optional paper and believes that spending more time reading newspapers is essential. He'd pick up The Hindu and The Indian Express and read them.

"While the newspaper was nearly always sufficient for current affairs," he explains, "for things that were not widely covered in general, I also resorted to Yojana and select YouTube channels."

Aspirants should strive to connect the UPSC CSE syllabus to the numerous current affairs subjects they encounter, according to Pradeep.

Additionally, make it a habit to create opinions on a variety of topics, both national and worldwide in scope. This, he claims, will aid applicants in writing essay responses in their main papers.

Make sure you learn from your mistakes.

"It is crucial that applicants learn from the mistakes they make," Pradeep says, noting that he only passed the prelims exam on his third attempt.

These are beneficial in every subsequent try." A sea change in one's personality occurs as a result of the cumulative trip spent in preparation. He also encourages candidates to strive for greater and better results.

Picking your optional paper in an efficient manner

"Always choose a subject that you believe will keep you motivated to study and will maintain your attention for a long time," Pradeep advises.

When it comes to gathering enough content to write a paper, even seemingly simple themes might be tough. Before you choose a topic, make a list of a few possibilities and read one or two chapters from each of them.

After gaining a sense of what the topic comprises, aspirants can make an informed judgement. You could also look at prior year's exam papers before making a decision. When choosing a topic for your optional paper, make sure you're well-informed.

Taking use of each and every hour of the day

Pradeep was a working professional who was studying for the UPSC CSE at the same time. "One must make advantage of any and all time accessible to them," he says. Preparing and keeping to a daily timetable may not be feasible for applicants pursuing a full-time job.

There will be days when you have five hours free and days when you just have two. As a result, Pradeep structured the course into various units.

"For example, if I were studying polity, I would divide it further and assign it a certain time period." This helped to balance the syllabus, and depending on my work schedule, I was able to commit more or less the same amount of time each day," he explains.

Maintain your commitment to completing the topic inside the time range you've specified. Also, figure out how to make the most of your lunch breaks and travel time by watching educational films or reviewing.

Place a strong emphasis on revision.

"Success in this competitive examination requires revision or self-assessment," adds Pradeep. Given the vastness of the material, an aspirant cannot be adequately prepared if they do not provide enough time for review. If there is no revision, it is also feasible for applicants to forget what they have learned.

"Preparing for the exams by taking as many mock tests as possible is an excellent method to revise. "This will also highlight your weak spots," he adds.

The consistent revision will also help you perform well in the exam and prevent you from making

little, yet costly mistakes. Pradeep also advises students to write a lot of essays and have them reviewed by mentors or peers. "Remember that self-evaluation is what will lead to your improvement," he advises.

Choose a language that you are familiar with.

Despite the fact that applicants can take the CSE in any of the 22 regional languages, Pradeep claims that there is a widespread notion that one can only do well if they choose English.

"Aspirants should choose a language that they are most familiar with," he advises. The media you select has no bearing on how well you perform on the exam. Just make sure you have enough resource material to prepare for any medium you choose."

Concentrate solely on perseverance, consistency, and determination. Pradeep has also provided a link where you may access the notes he took for the exam.
